DESCRIPTION

Gladiolus is a tall summer seasonal flower. Our Glads are available in a variety of colours and each stem has an abundance of flowers. They can be displayed on their own or can be used to add height to other arrangements.

HOW TO CARE FOR IT

- Place into a medium sized container with 1L water as soon as possible.
- Cut 2 cm off stems at an angle with a clean knife/scissors
- Remove all leaves that are under the water line. Add flower food.
- Monitor water level, and top up as required.
- Flowers are sensitive to heat and direct sunlight.

THIS PRODUCT

- Vase not included.
- Variations in colour may occur due to availability across regions.

OUR DIFFERENCE

- **Guaranteed to last.** Our fresh cut flowers are guaranteed to last as long as it says on the label. If they don't, we'll replace them.
- **We love local.** 90% of our flowers and plants are grown in South Africa.
