### National Status

|                     |   |
|---------------------|---|
| Status and Criteria | <b>Least Concern</b>  |
| Assessment Date     | 2005/06/30  |
| Assessor(s)         | W. Foden & L. Potter  |
| Justification       | This taxon was not selected in any one of four screening processes for highlighting potential taxa of conservation concern for detailed assessment and was hence given an automated status of Least Concern. The Threatened |

Species  
Programme is  
currently  
systematically  
completing full  
assessments for all  
taxa with an  
automated status. If  
you disagree with  
this taxon's status,  
please contact the
