Taxonomy

Scientific Name	Eriospermum aphyllum Marloth
Higher Classification	Monocotyledons
Family	RUSCACEAE

National Status

Status and Criteria	Least Concern
Assessment Date	2005/06/30
Assessor(s)	W. Foden & L. Potter
Justification	This taxon was not selected in any one of four screening processes for highlighting potential taxa of conservation concern for detailed assessment and was hence given an automated status of Least Concern. The Threatened Species Programme is currently systematically completing full assessments for all taxa with an automated status. If you disagree with this taxon's status, please contact the Threatened Species Programme at the link below.

Distribution

Endemism	South African endemic
Provincial distribution	Western Cape
Range	information redacted, contact SANBI
